Report on Thalassemia Awareness Program

Science club has organized Thalassemia awareness program on 4th October, 2024 on the second floor corridor in the presence of Dr. Yvonne Fernandes, Principal, Christ College. All the Science students and Faculty members were invited for the same. The primary aims and objectives of a thalassemia awareness program are to educate the public about the disease, its symptoms, and obstacle methods, support early detection through selection, promote premarital counseling for carriers, and advocate for excellence healthcare access for individuals diagnosed with thalassemia, finally aiming to reduce the popularity of the disease within a population by preventing new cases through informed decision-making. The event commenced in collaboration with Dr. Ravi Dhanani and Indian Medical Scientific Research Foundation (Life Thalassemia Prevention centre). In the beginning the officials of Life centre have given the refreshment. For Thalassemia testing, samples collection was started at 11.00 am. Total 68 students have been benefited by this test. The student's response was very good. The official for the sample collection was Ms. Heena from Life Thalassemia Prevention centre. Ms. Heena appreciated the student's response and enthusiasm about this event. Dr. Yvonne Fernandes, Principal Christ college, guided the club members for smooth conduction throughout the event.
