

REPORT ON EXPERT LECTURE

Department of Chemistry organized an expert lecture on Future Aspects in Chemistry by Dr. Ajay Pandya in the conference hall at 9.00am on July 31, 2023

The program was anchored by Ms. Ridhima Gupta and Ms. Dimple Katarmal. Ms. Ridhima gave the introduction of the speaker Dr. Ajay Pandya who is presently GM, KarvyTherapeutics Pvt. Ltd. Rajkot. Before the session began a floral welcome was done by Dr. Yvonne Fernandes, Principal, Christ College. Dr. Ajay spoke on the importance of Chemistry in today's era. He spoke about several employment opportunities in research and development, teaching, product development, quality assurance, analytical science and information science. He also guided the students how to set up your own industry on small scale as well as large scale. Dr. Ajay explained to students that skilled candidates with a background in chemistry can leverage their capabilities and qualifications to work in a variety of industries, such as education, manufacturing, ecology, and law enforcement. Chemistry skills like research, analysis, testing and documentation have a wide array of professional applications.

Before ending the session students asked questions and cleared their doubts. As a token of gratitude Sir was presented with a memento. Vote of thanks delivered by Ms. Dimple
