

## TEACHERS DAY

Every year, this day is dedicated to honoring teachers who educate students not just academically but in life. The event was divided into three phases of celebration.

The first phase involved students stepping into the role of educators for the day, assigned to teach various classes throughout the Christ College campus. This allowed them to experience the responsibilities of teaching firsthand.

The second phase took place in the main conference hall, where students showcased performances and presented their beloved teachers with handmade gifts. The cultural events culminated with a gift-giving ceremony, followed by refreshments for the students.

The third and final phase was an informal event exclusively for the teachers, organized by their peers. It began with a motivational video that highlighted the essential role teachers play in society. Fr. Dr. Jomon Thommana, Director of the Campus, addressed the staff, emphasizing the importance of quality teaching. Each teaching staff member was presented with a personalized memento featuring a unique photo and a prominent trait that represented them, making each gift special and meaningful.
